

HSEQ Policy and Objectives

HSEQ Policy

Borusan Pipe US provides products that enhance the quality of life and promotes the process of economic and social progress of our community.

Our HSEQ Policy provides a framework to establish the Health, Safety, Environment and Quality Objectives that are reviewed periodically to guarantee the suitability of the business.

The following policy is communicated and understood by all employees:

Borusan Pipe US is committed to exceeding the requirements of our customers by achieving the highest standards of Health, Safety, Environment and Quality in the Energy and Construction Industry. BPU continually improves its management systems, processes, and products while protecting people and the environment throughout all operational activities.

HSEQ Objectives

- Comply with applicable legal and other requirements to which the company subscribes.
- Increasing HSEQ awareness and safe behaviors amongst the workforce through incorporating Health, Safety, Environment and Quality requirements in all company activities.
- Prevent injuries and ill health to personnel affected by company activities through a proactive risk management process.
- Reduce all types of pollution by assessing environmental impacts and mitigating their adverse effects.
- Improve operational performance by setting objectives and targets with their regular monitoring and evaluation.
- Improve competence, skill, and knowledge of our workforce. Provide leadership and employees with the appropriate resources required to fulfill their professional duties.
- Continually improve the effectiveness of the management systems by planning, measuring and reviewing its processes.
